

ABOUT BELL HOUSE

Bell House is an educational centre that offers support outside the mainstream curriculum to encourage life long learning. A special emphasis is placed on dyslexia support for students, parents and teaching staff. In creating opportunities for wider learning, Bell House encourages people from all backgrounds to collaborate and unleash their creativity.

DYSLEXIA FAIR

Welcome to the Dyslexia Fair at Bell House where you will meet fellow parents, children, teachers and providers of tools to make learning easier and more relevant. We hope that you'll get advice to inspire you and share ideas that have helped you.

Let us know what you think.

EXHIBITORS

Maximum Potential

Maximum Potential is a globally established paediatric therapy service specializing in sensory integration and neurodevelopmental therapy. Maximum Potential offers therapy assessment and intervention as well as parental support and training and advisory services to educators and the medical profession.

The Dyslexia Association of Bexley Bromley Greenwich and Lewisham gives information to and help for parents, teachers, adults and interested professionals. Catrin trained as a teacher with an interest in special needs. She is Vice chair of DABBGL, after having been a SENCO and Headteacher.

Spellzone is an online spelling resource with three main components: The Spelling Ability Test, a complete spelling course and 1,000s of word lists. Spellzone is ideal for dyslexic students aged seven to adult and is used in schools, colleges, work place, home and on mobile devices.

Family publishing company specialising in the production of revision packs for dyslexic + SEN pupils aged 7 - 14 years.

The Bloomfield Learning Centre is an assessment and teaching unit for children and young adults with Specific Learning Difficulties, especially dyslexia.

Achieve Now offers a unique set of services with an emphasis on restoring self-esteem and utilising technology to help all learners exceed expectations.

Drawing on 20 years+ of experience in how students encountering SpLD learn best, Access 1st bring you ROMBipuzzle; an amazing new resource for improving perceptual organisation in learners.

Cambridge House supply schools, tutors & parents worldwide and will be exhibiting and selling a selection of practical resources to support literacy, numeracy, speech & language, memory and study skills and emotional health.

Scanning Pens Ltd is an Assistive Technology supplier and distributor of C-Pen ReaderPen & ExamReader. We develop solutions for individuals, educational institutions and organisations helping children and adults with dyslexia.

The Helen Arkell Dyslexia Charity has been providing expert, personal and life-changing support to people with dyslexia and other specific learning difficulties since 1971. Helen Arkell's services are now available in Dulwich, as the charity begins a new collaborative arrangement with Bell House.

KAZ's 'Award Winning' multisensory SEN/Dyslexia Typing Tutor, developed with Dyslexia Research Trust. It teaches typing skills whilst minimising disturbances related to visual stress by means of a unique 'Preference Screen'.

Arran Smith is Microsoft's UK SEND & Dyslexia Consultant and a dyslexic. Arran will be holding a talk on Assistive Technology and about the functionality that has been added into Office 365 and Windows 10 that can help to support its dyslexic users

Dyslexia Gold contains 3 unique computer programs to teach Dyslexic children to read and write. On average students reading and spelling improves by 3 - 4 months every month they play. Ages 6 – 15.

Elaine Halligan is a director at The Parent Practice. Her aim is to help parents raise competent and confident children through parenting classes, private coaching and keynote speaking. Her mission is to help parents keep calm and bring out the best in their children.

BrainBuilders offers exciting, practical maths after-school clubs and tuition. Our lessons provide fun, active, hands-on opportunities for maths skills application. Run only by specialist maths teachers, lessons are differentiated to meet the needs of all learners.

Helping pupils to spell well every day! A revolutionary literacy tool and a unique word-finding tool designed for pupils with Specific Learning Difficulties providing a different strategic approach to spelling.

Left 'n' Write specialises in products aimed at helping left-handers of all ages such as scissors, pens, pencils & grips, Left Hand Writing Skills books, Writewell Mats, can openers etc. We run training courses for schools.

Wordsharkv5 offers more than 60 motivating games to help with the difficult task of learning to read and spell. It's suitable for any student but mostly used with ages 5-15. Wordshark's sister programme, 'Numbershark' lays the foundations of Maths and works in the same way as Wordshark.

Units of Sound is an online, second chance literacy development programme designed to teach reading and spelling from Key Stage 2 through to adults.

Phonic Books Ltd is a publishing company founded by 3 dyslexia-trained reading specialists. We combine step-by-step phonic progression and imaginative stories and illustrations. Phonic Books publishes reading resources and games that help all children learn to read. At this Fair they will be launching our brand new That Dog! Series.
